Cento si caratterizza da un interasse estremamente ridotto a 100 mm per attrezzare in modo adeguato bagni o spazi molto piccoli.

La serie, pur rispecchiando tutti gli standard qualitativi Remer, si posiziona su di una fascia molto competitiva, dato il ridotto volume degli articoli stessi.

Il design della serie è stato ideato dal Gruppo di Ricerca e Sviluppo di Remer Rubinetterie ed ingegnerizzata e prodotta nei nostri stabilimenti produttivi situati in provincia di Milano.
