ACADEMY

ELEGANZA SCOLPITA NELLA FORMA
ELEGANCE, SCULPTED IN FORM

Nella collezione Academy, le otto sfaccettature del corpo si fondono elegantemente con la maniglia a leva, ribassata e senza tagli posteriori, creando un'architettura di design scultoreo. Il tutto è impreziosito dai naturali riflessi e prospettive.

In the Academy collection, the eight facets of the body blend elegantly with the lowered lever handle, free of rear cuts, creating an architecture of sculptural design. The whole is enhanced by natural reflections and perspectives.

Soffione doccia ottagonale da soffitto in acciaio inox lucidato a specchio e getti in silicone, misura cm 30, con sistema di fissaggio easy fix.
Octagonal ceiling-mounted shower head in mirror-polished stainless steel with silicone jets, size 30 cm, with easy-fix mounting system.

CR

FIN 1

FIN 2 / PVD

APPLICAZIONE A SOFFITTO "EASY FIX" - "EASY FIX" CEILING APPLICATION

Per questa tipologia di soffione e con questo specifico sistema di fissaggio sono previste quattro molle per ogni soffione.

Nell'immagine 1 si evidenzia il primo movimento necessario:

caricare due molle vicine tra loro mettendole quasi in posizione verticale rispetto al soffione ed inserirle all'interno del foro precedentemente preparato.

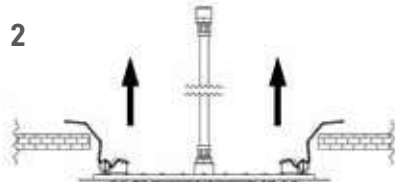

Rilasciare le stesse delicatamente.

For this specic shower-head with this specific mounting system, four springs are installed on each head.

In picture 1, you shall see the first needed movement to activate them:

Spring-load two springs next to each other placing them almost vertically and insert them in the hole in the ceiling;

Release them gently;

Mantenendo il soffione leggermente inclinato procedere caricando ed inserendo le rimanenti due molle come da immagine 2.

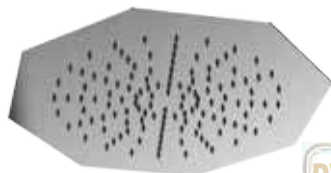

While keeping the shower head slightly inclined, proceed by spring-loading and inserting the two other springs as shown in picture 2.

A questo punto rilasciare delicatamente le molle alla loro naturale tensione e, trattenendo esternamente il soffione, accompagnare lo stesso verso il totale appoggio al soffitto come da immagine 3.

Now release the springs back to their natural tension and, while holding the head from outside, guide it to its final position as shown in picture 3.

SOFFIONI - SHOWER HEADS
